

みかんほうや

I used to suffer from really bad acne on my face and back. It left me with terrible scars. I went to

Bioskin and my friendly consultant Vernni customized a treatment which included the Bio O2 Light infusion therapy.

After one session of treatment, I noticed that my face was brighter and my scars became lighter. Now my acne is gone and my scars are no longer visible.

I want to thank Vernni for her kind attention and for her warmth towards my condition. She was very understanding and had always encouraged me throughout my treatments. I really appreciated all the help and effort she put in to help me.
