

To: All consultants & therapist of BioSkin [Raffles & 'The Central' branch]

Thank you for the great services provided by you guys! The overall environment & ambience for both outlets are amazing. The clerks are nice & gives people a very relaxing effect. There are always smiles on the consultants and therapist's faces, giving me very good first impression. The consultants (like Vani? (Vivian)) are very professional & recommended very good products that is catered to my skin type. Detailed explanation of the usage was given too! The therapists are polite & sensitive to the client's needs.

With proper collaboration between the client & their consultants, the slimming programs have yield great results for me. 10kg!! is not easy to lose & I made it with their help. The sessions were relaxing with no discomfort. Painless, but effective Pox removes dirt from pores without leaving any scars. My oily/lacne prone skin condition have greatly improved with their facial sessions. The shoulder massage that accompanies the facial are carried out by trained personnel, & the result is a stress free state where all your muscle tension are removed. Scalp therapy is one of my favorite. The relaxing sessions can literally puts you to sleep & drains away all tension from a day's stress. You'll definitely want to have more. Oh yes, their hair removal packages are worth the investments too!

An Impressive Job done! Well done guys!

With love,

Wendy
